

the  
**True Princess**

## PATIENCE

What does “being patient” mean? Talk about this with your Royal Partner. Sometimes it’s hard to be patient. But a True Princess learns to be patient and believes that good things will come. Cinderella believed that her life would get better. She never lost hope and always had a positive attitude. Snow White had a kind and trusting heart. Even though many handsome young men wanted to marry Belle, she was not going to settle for any of them. While they were handsome on the outside, she wanted someone who was beautiful on the inside and cared about the same things she did.

What are some wishes you have for your life?

---

---

---

Are they so important that you’re willing to wait and work for them to happen? \_\_\_\_\_

With your Royal Partner, gather up some old magazines. Cut out pictures that make you think about the things you want or want to happen. Glue them on a big cardboard board. This is what we call your **DREAM BOARD**. Put it up where you can see it every day. Just watch what will happen. Because you made your dreams clear, they are more likely to happen.
